

GOOD SHOW FOR COFFEE

Hilo, September 1.—The Hilo Coffee Mills, of which W. S. Terry is proprietor, cleaned nearly seventy tons of coffee for shipment on the Enterprise. Of this amount 57 tons is shipped by Louisiana Bros. and the balance by E. W. Barnard. It is said there is quite a demand for Hawaiian coffee at the Coast and that much of this is sold to arrive.

KEOLANUI REPRIMANDED.

Judge Parsons gave Keolanui a severe reprimand in court at Honolulu on Saturday. The jury and the court were present waiting for the prisoner to be brought in by the sheriff but they did not arrive until ten minutes after time. The judge took occasion to remark that the sheriff's department had caused the court a great deal of trouble and he would not allow it to happen again.

WEDDING BELLS IN KAU.

Between one and two o'clock last Sunday afternoon Auditor Charles Maguire and Miss Abbie K. Kekaula were united in marriage at the residence of Mr. and Mrs. Robert T. Forest at Punahoa. Preparations for the event occupied weeks for it was the intention of the relatives of the bride to give a luau, the equal of which had not been in Kau since the old monarchial days. And their arrangements culminated in one of the most magnificent affairs—this kind ever seen on this island.

The wedding ceremony was performed by Rev. Kaleiwa, the handsome couple occupying a position under a beautiful floral bell. Henry Beckley supported the groom and Miss Kekaula of Honolulu was bridesmaid. Lloyd Conking of Honolulu was present and officiated at the piano, playing the wedding march from Lohengrin as the bride entered the room on the arm of her uncle, J. K. Kekaula, who gave her away. Immediately after receiving congratulations the bridal couple entered the pavilion especially built for the luau and were followed by nearly three hundred guests. During the luau music was furnished by the Lei Lehua Quintette Club of Honolulu, which came up for that purpose. It is said that nearly five hundred persons enjoyed the feast. Mr. and Mrs. Maguire left for the Volcano House on Monday and arrived in Hilo last night.

About twenty-five friends of Mr. Maguire chartered the Maui to go over to Punahoa so they could attend the wedding, but as the steamer did not get in until later than was expected it was not deemed advisable to dispatch her. The band was to have gone over and was at the wharf with the other passengers to take the steamer when word was given out that the trip would not be made.

LEAVING THE ISLAND TERRITORY.

Mr. and Mrs. George Ross of Hakalau leave for the mainland tomorrow and they began saying their farewells on Saturday. In the evening Mrs. Ross entertained a large number of friends at cards at the residence of Mr. and Mrs. Harry Patten. This was a sort of farewell to the employees of the plantation and during the evening there was a collation that was most enjoyable. About fifty guests were present. On Sunday there was a luau in typical Hawaiian style given by Mr. and Mrs. Patten and forty-five sat down to the feast. This was one of the finest affairs of the kind ever given at Hakalau. Mr. and Mrs. Ross have been guests of honor at several social functions during the week, for they have many friends in the district who will greatly regret their departure.

HEALTH OFFICERS ARRIVE.

Dr. Cofer of the United States Marine Hospital Corps and President Pinkham of the Territorial Board of Health spent Thursday in Hilo investigating the health conditions of the town. Mr. Pinkham also looked into the hospital and arranged that any lepers taken up prior to the time of departure of a steamer which under the law could carry them to Honolulu should be kept in the pest house on the Puna road.

Dr. Cofer made a close inspection of Waialea, at which place it had been reported to him much sickness existed. The doctor found the place in a highly sanitary condition and the particular "hotel" complained against had sanitary plumbing, cement floors and everything of the most modern character. He pronounced Waialea in fine condition. Mr. Pinkham said he could throw no light on the sewer question; the Public Works Department considered it beneath the dignity of itself to take cognizance of any report made by the Board of Health and for that reason he did not care to make any suggestion. He did say, however, that the sewer should be promptly completed.

VOLCANO HOUSE, Hawaii, August 23.

—Last evening an unusual glow was seen coming from Halemaumau, which appeared from the Volcano House as if the flame of fire rose some distance above the great pit. Great excitement prevailed. A party was formed and made the descent, arriving at the fiery furnace at about 10:30 p. m.

The glow came from a great fissure, which formed an elongated cone, through which great puffs of fire and lava were being thrown with Titanic force. This display was close to the wall of the northeast side of Halemaumau.

On the northwest side was a large lake covered with broken lines of fiery lava, and here, at intervals, small lava flows occurred.

Throughout the floor of the pit many lights appeared and disappeared, showing evidence of activity everywhere. In fact, it would seem as if Madame Pele is preparing to stir up volcanic furnace in grand display.

The volumes of black smoke that

poured out seemed to indicate smouldering fire that may burst into action at any moment.

Wouldst thou see Halemaumau world-famed?

Where the lava for ages has flamed, The wonder of awe-stricken mortals?

Hasten then, for no man knows the hour

When Pele, the goddess of power, Will whimsically close her great portals.

Madame Pele's visitors, Monday evening, August 28, 1905, were W. L. Howard, Honolulu; H. G. Davis, Brooklyn, N. Y.; E. M. Stevens, Honolulu; G. L. Keeney and Edith L. Keeney, Punahoa, Maui; Carrie P. Green, Honolulu, and M. Louise Deyo, Hilo.

THE WEEK'S REGISTER.

Following is a list of guests registered at the Volcano House for the week ending August 31: R. M. Taply, J. H. Nicholson, New York; Miss Hanlan, Miss Le Van, Los Angeles, Cal.; Nellie Hufschmidt, San Francisco; Miss J. S. Parke, John F. Doyle, R. W. Breckons, J. Nash, E. R. Hendry, G. J. Waller, G. J. Waller, Jr., Ruth Waller, Christie Waller, Miss Henrietta Waller, Esther K. Waller, Mrs. Anna Waller, W. G. Cooper, Harriet Cooper, E. Langer, Honolulu; Mrs. E. W. Hitchcock and daughter, Mr. and Mrs. C. K. Maguire, Miss Mary Forrest, Punahoa; W. G. Ogg, Pahala; Miss Kuilei Hapai, G. H. Gere, Frank Medcalf, E. D. Baldwin, Hilo.

HILLO NEWS NOTES.

The S. S. Enterprise takes away 6300 bunches of bananas and a large number of crates of pineapples.

Manager Wright, with the assistance of R. T. Moses, made quick arrangements for the transportation of thirteen volcano passengers from the Enterprise yesterday morning.

United States Marshal Hendry and United States District Attorney R. W. Breckons came up on the Enterprise and proceeded to the volcano on the early train yesterday morning.

The court is held up in Honolulu owing to Attorney Smith's motion to quash indictment of a Japanese murderer on the ground that some of the grand jurors were made citizens by a circuit judge.

The main case to be tried at the Honolulu term will be Morita and his three accomplices who are charged with having murdered a Japanese in Smithville on New Year's eve. The men will have separate trials. The Keolanui damage suit has been postponed.

PACIFIC ISLANDERS' DAY AT SALT LAKE

The annual reunion and entertainment of the missionaries of the Mormon church who have served in the Pacific Islands field have come to be an event of great interest in Salt Lake. Whenever this reunion is held the missionaries bring together as many as convenient of the converted natives, and with them (or without them) they illustrate the speech, some of the ceremonies and customs, and of the peculiarities of the different Islanders. It is an event that has come to be looked forward to with keen interest by many who have no connection with the missions, or even with the church. And it is an increasing interest, too, as more and more of the missionaries take part in it, and the things to be illustrated increase in number and variety.

It is an entertainment well worth seeing. The reunion has just been held for the present year, and it was more largely attended than ever before. And it was better worth seeing. In the past there have at times been disappointments because of the lack of full facilities for the people to see and understand what was going on. The most successful reunion that we have ever seen in this respect, where all could see and hear, was some years ago, at Salt Lake. Every one could see all, and hear all. Other occasions may have been just as amply satisfactory in this respect, but we speak only for what we have seen ourselves.

But with the growing interest in this very interesting reunion and the entertainment provided, we suggest that those making the arrangements should be careful to so place and arrange the occasion that all who desire can see, hear and understand. It is a great entertainment, full of novelty and interest, one that is a drawing feature, and that deserves to be. The Pacific Islands missionaries have the call on the State on the day of this reunion, and all are glad to see them and the very fine exhibits which they present.—Salt Lake Tribune.

Coast papers announce the death of Hon. David Wark, "the oldest legislator in the world," at his home in Fredericton, New Brunswick, on August 29, aged 101 years and six months. Mr. Wark was a member of the Senate of the Dominion of Canada, an appointive and life office, from the date of confederation, July 1, 1867, until his death. Travelling nearly a thousand miles to the capital, he occupied his seat in parliament on his one hundredth birthday. Within the past year Mr. Wark contributed powerful and well-written articles on Imperial and Dominion questions to the Montreal Witness. His career is not one to illustrate a lecture in sympathy with Oslerism.

Captain Beggs of the German cruiser Condor made an official call on Governor Carter yesterday.

Captain Simerson resumes command of the Mauna Loa today, having had a two weeks' vacation.

WEEKLY CROP BULLETIN.

For the Week Ending September 2, 1905.

HONOLULU, T. H., September 4, 1905.

GENERAL SUMMARY.

Partly cloudy conditions have prevailed, with occasional strong trade winds and temperatures slightly lower than during the preceding week. The rainfall has been abundant in all sections of Hawaii except portions of the Kau district, and in windward sections of all the other islands. Dry weather continues in leeward Maui, leeward Oahu and eastern Kauai.

Conditions on the whole have been quite favorable for the growth of cane, although in some windward sections more sunshine would have been beneficial and the ground has been too moist for proper cultivation, much hoeing also having been necessary to keep down the weeds. In portions of the Kau district of Hawaii, a continuance of dry weather and hot winds has been very hard on young cane. Planting for the 1907 crop continues, and a few of the mills are still grinding 1905 cane. The harvesting of the summer crop of pineapples is rapidly drawing to a close, and fruit buds for the winter crop are showing up nicely. Young pineapple plants are growing well in all sections. Coffee trees are reported as in good condition in all sections, but would now be benefited by a few sunny days in Kona, Hawaii, where continued cloudy and showery weather is retarding the ripening of the berries. The prevalence of showery conditions has been very beneficial for pastures, which continue to improve in most sections although some leeward pastures are still very dry. Second crop rice is doing nicely. Young sisal in central Maui is growing rapidly on account of the moist conditions which have obtained in that locality.

REMARKS BY CORRESPONDENTS.

ISLAND OF HAWAII.

Kaunakoa—6.48 inches of rain during week; land too wet for cultivation, but the crops are doing well; stripping cane.—J. E. Camille.

Hilo—Frequent showers during week; all vegetation growing rapidly.—L. C. Lyman.

Papaikou—Good growing weather for all crops, but too much moisture for weed killing; fertilizing, weeding, cultivating and stripping cane.—John T. Moir.

Peepee—Wet, dull weather, with falling temperature; cane growing well; weeding, hoeing and fertilizing cane.—James Webster.

Honolulu—Heavy rain, making cultivating heavy; thrashing, hoeing and cultivating cane.—W. K. Andrews.

Laupahoehoe—Rainy all week; light winds and smooth seas.—E. W. Barnard.

Oakala—Warm days continue, with rain every night; growing crops doing well; weeding and hoeing cane.—W. G. Walker.

Paauhau—Continual showers throughout week; cane crops healthy and growing well; stripping cane for next year's crop.—H. Glass.

Honokaa—Weather warm and showery; growing cane crops doing well.—C. H. Bragg.

Niuli—Weather favorable for growth, but less rain and more warmth in our uplands would be better for cane; soil temperature is kept down; hoeing, cultivating and stripping cane.—Robt. Hall.

Kohala Mission—Frequent showers and warm weather are doing much to push the growth of cane in the fields.—Dr. B. D. Bond.

Puakea Ranch—Weather conditions very favorable during the past week, and pastures much improved; stock in good condition; week's rainfall 1.09 inches.—A. Mason.

Kamuela—Strong trade winds with occasional showers; pastures in fair condition.—E. R. Conant.

Kamuela—Moderate temperatures during week; .64 inch of rain.—Mrs. E. W. Hay.

Puuwaawaa—A little rain fell during the latter part of the week, thereby improving the land after the drought.—Robt. Hind.

Honokahua—Very heavy rains during week; pastures in fine condition.—F. R. Greenwell.

Kealahou—Very wet weather during week; a few fine days would be beneficial to crops and live stock.—Robert Wallace.

Kau—Strong winds and nice showers; good rains at lower levels also.—F. H. Hayseiden.

Naalehu—Very little rain since last advice, but pastures and crops continue to look well; weather is quite warm.—G. G. Kinney.

Pahala—Another dry and windy week, with disastrous effect on young cane.—H. D. Harrison.

Kapoho—Week characterized by heavy rainfall and considerable wind, with rough seas.—H. J. Lyman.

ISLAND OF MAUI.

Kipahulu—Weather continues showery and warm, and cane is growing well under the favorable conditions; squall winds on night of 28th.—Andrew Gross.

Hana—Fine growing weather throughout week, with sufficient rain; cane doing well; cultivating and weeding cane.—N. Omsted.

Nahiku—Cloudy weather nearly all week, with 5.91 inches of rain.—C. O. Jacobs.

Huelo—Heavy rains have fallen during week, more especially at the higher elevations; good supply of water in all streams, and all plantation irrigation ditches full.—W. F. Pogue.

Peahi—Weather has been very stormy

all week, with plenty of rain and very little sun.—Geo. Groves.

Haleiwa—Weather conditions have been very favorable for our growing crops; harvesting of summer crop of pineapples continues, and the winter crop is developing rapidly; sisal is growing finely under the moist conditions; pastures in good condition; plantation irrigation ditches running full capacity.—D. D. Baldwin.

Pala—Continued warm weather, with frequent showers.—J. J. Jones.

Kahului—Warm, sunny days and cool nights; no rain.—R. W. Filler.

Punahoa—Warm weather, with light showers during latter part of week; ditches full, and only two pumps running.—J. N. S. Williams.

Waifuku—Cool, cloudy weather all week, with sufficient water at water heads for all purposes; rice and garden truck doing well; pastures in good condition; light trades.—Bro. Frank.

Kihel—Continued strong trade winds and partly cloudy weather this week; not quite so warm; 1905 cane crops looking fine; planting steadily.—Wm. A. Sparker.

Olowalu—Very strong northeast gales during fore part of week; weather cloudy and warm; plowing land and planting cane; pastures very dry.—George Gibb.

Kaunapali—Strong northeast winds, with light showers at intervals; all growing cane and pastures looking well.—Wm. Robb.

ISLAND OF OAHU.

Maunawili—Weather showery and warm; coffee doing very well, and pastures in fair condition.—John Hird.

Waimanalo—Continued warm weather, with daily light showers.—A. Irvine.

Ewa—Weather cooler than during the previous week, cloudy, but with no rain; planting cane.—W. Lohrengel.

Waiānae—A little rain fell here on the 31st, but otherwise the weather has remained unchanged since last report; cane growing well.—F. Meyer.

Waipua—Continued warm weather, with occasional showers; summer crop of pineapples nearly all harvested; young plants in good condition, and winter crop showing up nicely; pastures in fair condition.—W. R. Waters.

Kahuku—Weather warm and cloudy, with very high winds during fore part of week; light showers every night; plowing land and planting cane; harvesting and milling Lale cane this week.—R. T. Christophersen.

ISLAND OF KAUAI.

Makawili—Quite warm; very cloudy conditions during latter part of week, but no rainfall; planting and grinding cane steadily.—Hawaiian Sugar Co.

Eleele—Weather warm, with moderate winds and light showers at night.—McBryde Sugar Co.

Koloa—Days very warm and cloudy, with showers amounting to 1.93 inches during week; cane crops progressing nicely under favorable conditions.—P. McLean.

Lihue—Warm weather, with strong trade winds and occasional showers.—F. Weber.

Keala—Frequent showers cause much hoeing; water supply plentiful; cane made very good growth during August.—W. Jarvis.

Kilauea—Cloudy and rainy weather conditions during the last week have been very favorable for the growth of cane.—L. B. Borelko.

Hanalei—2.70 inches of rain during week recently planted rice is doing well, and pastures are in excellent condition.—E. G. K. Deverill.

A. McC. ASHLEY.
